CHAIRMAN'S STATEMENT

Dominion Energy PLC (stock code: DOMP), a company principally engaged in the exploration of oil and natural gas in Tunisia, North Africa announces its interim results for the six months ended 31 December 2010.

Fawar and Mezzouna Permits, Tunisia

The Company reported its exploration progress fully in November 2009 and in its Annual Results statement issued on 25 November 2010. During the period under review the Company has continued to ready itself for the conclusion of a Competent Persons Report and the selection of drilling locations.

Further developments

Negotiations are continuing with a large diversified Russian group, whose activities include interests in oil and gas, to form a joint venture to include the introduction of new assets into Dominion. It will be the joint venture's intention to move the new enlarged business of Dominion to the AIM market of the London Stock Exchange.

We have maintained our interests in Persian Gulf.

Going concern

In the period under review, the Company raised £200,000 via two private placements. Negotiations are currently being conducted with prospective financial partners to provide further working capital.

Post-period event - Licences extension

Dominion was pleased that the exploration licences for both projects Fawar and Mezzouna have been extended for one year until 4 April 2012 and for a further year thereafter subject to Dominion completing certain seismic acquisition and drilling programmes.

Results for the year

For the six months ended 31 December 2010, the unaudited loss amounted to £200,620 compared to a loss of £183,651 for the same period in the previous year. The results include the salaries of oil and gas executives, overseas staff, costs of consultants and administrative expenses of overseas and UK offices.

Outlook

Following the licences extension we continue our plans to raise finance to enable us to commence drilling our first wells within the two year extension.

We continue the joint venture negotiations.
